

This is Visual Vocal | SCENES AND HOTSPOTS

The screenshot shows the Visual Vocal interface. At the top left, the logo and a compact path 'TONTECHI/888 TOWER/SCENES' are visible. Below the path is an '+ Add Scene' button. A sidebar on the left contains a navigation menu with categories like '888 TOWER', 'PEOPLE', 'CHALLENGES', 'SCENES', and 'INVITEES'. Under 'SCENES', several project names are listed, including 'OVERLAKE HOSPITAL', 'OPERA HOUSE', 'COURTHOUSE', 'MEMORAL FOOTB...', and 'TECHNOLOGY CE...'. At the bottom of the sidebar are links for 'Support | Home | About | Visual Vocal'. The main area shows 'Scene 1' with a 3D architectural rendering of a building. Below the rendering are two hotspots: 'Hotspot 1 - Internal lobby bracing variations' and 'Hotspot 2 - Mkjan bfej nabs jgfvabnf ,jfvdsnb'. Each hotspot has a 'Place' button and a sequence of four visual variations (V1-V4). An '+ Add Hotspot' button is at the bottom of the scene editor. On the right, a 'Details Pane' is open for a selected hotspot, showing fields for 'File Name', 'Media Type', 'H Resolution', and 'V Resolution'. It also has a 'Scene Description' text area and a character count '0/140 characters'. At the top right of the interface is an 'SBH' button. At the bottom, an 'Image Count' progress bar is shown.

You current context within a Project is shown in this compact path

Scene Description

0/140 characters

Change your profile settings by clicking on your image.*

Additional commands can be accessed from the "More" button.

You can hide the Details pane at any time by clicking the close button.

Media type lets you tell our system how your panorama image is composed.

You can create short text descriptions for most items. This give viewers context for what they are seeing.

Access support information and learn more about Visual Vocal from these links.

There is a budget for image downloads so that people can access your content in a reasonable amount of time.

Each hotspot can contain up to four visual variations for which you want feedback.

The Details Pane always gives you information and control over the properties for selected items. It appears any time you select an item such as a scene, V|V, or person.

Your list of Projects are always available.

A V|V can have multiple scenes within it, each scene representing a different locale.

Add new scenes and content by clicking on the Add button.

Assign a location for each hotspot within a scene panorama by clicking the "Place" button.

This is Visual Vocal | PEOPLE

The screenshot displays the 'PEOPLE' section of the Visual Vocal interface. On the left, a navigation sidebar shows a tree view with '888 TOWER' expanded to 'INVITEES'. The main content area is titled 'TONTECHI/888 TOWER/INVITEES' and features a '+ Add Someone' button. Below this is a table with columns for Name, Status, and Responses. The table lists two invitees: Fiyori Berhane (INVITED 10/06/2017, 0% responses) and Anna Jones (ACCEPTED 07/17/2017, 12% responses). A detailed profile for Fiyori Berhane is shown on the right, including fields for Name, Email Address, Role, Organization, and various address fields. A 'Resend' button is highlighted above the profile. A 'Support | Home | About | Visual Vocal' footer is visible at the bottom left.

Name	Status	Responses
Fiyori Berhane	INVITED 10/06/2017	0%
Anna Jones	ACCEPTED 07/17/2017	12%

If a person does not seem to be responding to a request to join a V/V, you can resend an invitation.

Because this person has already been verified in the Visual Vocal system, their personal data is locked.

Access quick popups that explain various options.

- People can have one of several roles:
- Project Owner
 - Stakeholder
 - Participant
 - Viewer
 - Inactive

Find out who has accepted their Visual Vocal invites and who has actually responded to the current V/V

You can quickly see how many of the V/V questions a given person has responded to.

This is Visual Vocal | PLACING TELEPORTERS

The current teleporter is shown with crosshairs to aid in finding it.

Tapping on a new location on the underlying panorama assigns a new location for the teleporter.

After placing your teleporter, closing the window saves your placement.
